Introduction to Wireless and Mobile Networking
Homework 5: mini-project

Due Date: 2024/12/23

Find at least two IEEE magazine articles related to wireless and mobile networking. Please find articles published in recent years (2020~now and early access articles).

https://ieeexplore.ieee.org/Xplore/dynhome.jsp?tag=1

Write the report after reading those articles. Please include those articles in the reference section of your report (you could refer to the citation format in the article you read)

[1] Summarize the articles
    -- what is the problem
    -- what is the importance
    -- what is the proposed solution
    -- what is the contribution of the article

[2] Strengths and weaknesses of the described technologies
    -- what is good
    -- what is bad

[3] Compare/classify the described technologies. You could also compare it to the state-of-the art.

[4] Your comments and future direction

[Optional] Do a quick search and mini-survey to find out more related research papers/researchers. What do you find? What's useful or interesting?
[Optional] You are encouraged to use IEEE paper format to write the report
